EXPERIENCE:

Frontend Development Intern – NAPX | May 15, 2024 - August 15, 2024

- Working on building a captivating e-commerce website from scratch, crafting a seamless user experience that draws customers in and makes shopping a delight.
- With each line of code, creating an online platform that's both visually stunning and effortlessly functional.
- The website takes shape, exploring our products and making [NAPX](#) their go-to shopping destination.

Frontend Development Intern – ARON ROSEN | August 31, 2023 – October 31, 2023

- It was a Freelance project in which the client asked me to add few pages on their existing website. Their website was about real state, where the user can filter the property according to budget and places they like.
- The main work was to create the pages and maintain the website for 2 months. The main feature added was to filter the agents according to the places and price range.

PROJECTS:

[MUSIC-WEBISTE](#) - Personal Project
